Soft Skills

- Problem Solving, Flexibility
- Self-motivated, Critical Thinking
- Adaptability, Collaboration
- Team Management, Teamwork
- Public Speaking, Research
- Project Management, Leadership
- Detail oriented, Communication

Summary

Frontend Developer with **3+ years of experience** in building responsive, high performance web applications using **React, Typescript, and Javascript**. Skilled in **Agile methodologies, software testing**, and delivering clean, efficient code. Strong in **communication, collaboration, and problem-solving**, with a focus on **adapting** to user needs and the latest frontend technologies.

Experiences

Front-End Developer • Inavitas (Hybrid) September 2022 – Present

- **Led the transformation** of our React application to a **Micro Front-end architecture**, ensuring alignment with updated designs. Achieved **100%** coverage of main features, decreased customer wait time by **35%**, and reduced build-time by **60%**.
- Covered core functionality by **e2e and unit tests**, resulting in a **30% reduction** in bug-related delays and a **40% increase** in overall code quality.
- Collaborated with industry leaders like TAB Gida, Havelsan, and TEIAS on diverse projects. Ensured **punctual delivery** of new features and played an **active role** in resolving bugs, resulting in a **20%** increase in **customer satisfaction**.
- Enhanced user engagement by maintaining and updating over **15 widgets** on the dashboard page, resulting in **25% boost** in overall dashboard usability.
- Worked with **scrum and agile development principles using JIRA** and collaborated with team members using Microsoft Teams.

Front-End Developer • Arina Digital (Remote) April 2022 – September 2022

- Developed the **entire front-end** of the Technical Card project from scratch. This included developing a fully **responsive** website consisting **20 pages**.
- Achieved a **30% increase in user engagement** and a **25% decrease in bounce rate** by translating Figma designs into pixel-perfect and user-friendly web and mobile interfaces.
- Contributed to the renovation and development stages of Mbis and Klimasan projects, resulting in improved project outcomes and efficiencies.

Education

METU Engineering Bachelor's Degree Sept 2016 – Aug 2021

- **CGPA: 3.60/4.0** (3th/456)

Technical Skills

- Main Tech Stacks: **React.js, TypeScript, JavaScript, Node.js/Express**
- State Management: **Redux, Zustand, MobX, TanStack-Query, Rx.js**
- UI Tools: **SCSS/LESS/SASS, Tailwind CSS, Ant Design, Bootstrap, Chart.js, Highcharts, AGGrid, Storybook, Fabric.js, UX/UI, Figma, xDesign.**
- Testing: **Jest, Playwright, React Testing Library**
- Familiar: **Micro-Frontend, Jenkins, Rancher, ESLint, StylinT, Microservice, Git, Gitlab, Github, Bitbucket, Gulp.js, Scrum, Agile, JIRA.**

Certifications

- **Data Structures and Algorithms – ZTM** January 2023
- **React The Complete Guide – Academind** September 2022
- **Full-Stack Web Development Bootcamp – Udemy** February 2022
- **Using Python to Access Web Data, Python Data Structures , Getting Started with Python – University of Michigan**
